The Reading 7-1 Final Test

영어 독해 · Level 7 (중1 수준) · Unit 1~8 · 50분

반 _____ 이름 _____ 점수 _____

- 총 40문항, 모두 5지선다형 객관식이며 문항당 2.5점(100점 만점)입니다.
- **70**점 이상(**28**문항 이상 정답)이면 합격입니다.
- 각 문항에서 가장 알맞은 답을 하나만 고르세요.

Unit 1 · Art — Andy Warhol and Pop Art

[1~5] 다음 글을 읽고 물음에 답하시오.

Throughout time, art has been used to decorate homes, churches, and public buildings. In modern times, art is used in advertisements, magazines, cartoons, and even on television! Art in advertisements has become increasingly popular. This is called commercial art. One of the most famous commercial artists was Andy Warhol.

Andy Warhol was often sick as a child, so he spent a lot of time drawing. After college, he began his career making art for advertisements. His drawings of shoes became so well known that people wanted to see more of his work. Thus, in the 1950s, he began showing his popular works in art galleries. Warhol was one of the first artists to use silkscreen ink printing in his work. During the 1960s, he produced many famous art pieces depicting everyday objects. These include Coca-Cola bottles, dollar bills, and Campbell's Soup cans. This kind of art is referred to as "pop art."

Some critics think Andy Warhol was only interested in making money with his art. Others thought he was the perfect example of commercialized modern life. Apart from this argument, most critics agree that Warhol's work shows the changing value of art in everyday life.

1. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"a person who writes about and expresses opinions about books, movies, music, or art"

① gallery ② career ③ critic ④ stencil ⑤ bottle

2. 윗글에 따르면, Andy Warhol이 어린 시절 그림을 많이 그린 이유로 가장 적절한 것은? [2.5 점]

① He studied art in college. ② He was often sick as a child.
③ His parents were famous artists. ④ He wanted to sell his drawings.
⑤ He worked for a magazine.

3. 윗글의 제목으로 가장 적절한 것은? [2.5 점]

① The History of Silkscreen Ink Printing ② Famous Paintings in Churches
③ How Television Changed Advertising ④ Why Critics Dislike Commercial Art
⑤ Andy Warhol and the Rise of Pop Art

4. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① Today, art is used in magazines and cartoons.
② After college, Warhol made art for advertisements.
③ Warhol began showing his works in art galleries in the 1950s.
④ Warhol made art pieces of soup cans and dollar bills in the 1970s.
⑤ Some critics thought Warhol only cared about making money.

5. 윗글을 통해 추론할 수 있는 것으로 가장 적절한 것은? [2.5 점]

① Warhol's work showed that everyday objects could become subjects of art.
② Warhol stopped drawing after he became famous.
③ All critics agreed that Warhol was a great artist.
④ Warhol was the person who invented silkscreen printing.
⑤ Art in advertisements was more popular in the past than today.

Unit 2 · Nature — The Water Cycle Keeps Earth Balanced

[6~10] 다음 글을 읽고 물음에 답하시오.

The water cycle is necessary for life on Earth. Water on the ground evaporates into vapor and forms clouds in the sky. In return, rain brings water back down to the ground again, which ends up in streams, rivers, lakes, and oceans. What happens when humans tamper with the water cycle?

Most evaporation occurs in oceans as a result of the Sun's energy. This cools the temperature of Earth's climate and also affects the oceans' salt content. Having the correct amount of salt in the oceans maintains a delicate ecosystem of plants, fish, and other wildlife. One example of a disaster caused by tampering with the water cycle is the drying-up of the Aral Sea. The two rivers that fed the Aral Sea were diverted for farming in the desert. As a result, the sea is now almost completely dry, killing the wildlife that lived there and causing dust storms that affect human health.

As we can see, the water cycle is necessary to keep the environment balanced. It is important to understand the water cycle and to protect our water sources so they can function well for Earth's sake.

6. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"tiny drops of water or other liquids in the air that appear as mist"

① salt ② vapor ③ desert ④ wildlife ⑤ stream

7. 윗글에 따르면, Aral Sea로 흘러가던 두 강의 물길을 바꾼 목적은? [2.5 점]

① to farm in the desert ② to build a new city
③ to make electricity ④ to stop dust storms
⑤ to protect wildlife

8. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① how clouds form in the sky
② the best way to farm in the desert
③ the history of the Aral Sea
④ the importance of the water cycle and the danger of changing it
⑤ why ocean water is salty

9. 윗글의 내용과 일치하는 것은? [2.5 점]

① Most evaporation happens in lakes and rivers.
② Evaporation makes Earth's climate warmer.
③ Evaporation does not affect the salt content of the oceans.
④ The Aral Sea is now full of fish and plants.
⑤ Dust storms from the dried-up Aral Sea affect human health.

10. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

When humans (A) _____ the water cycle, as in the case of the Aral Sea, the environment can lose its (B) _____.

① (A) protect …… (B) beauty ② (A) study …… (B) salt
③ (A) change …… (B) balance ④ (A) protect …… (B) balance
⑤ (A) follow …… (B) balance

Unit 3 · Social Studies — The Slow City Movement

[11~15] 다음 글을 읽고 물음에 답하시오.

In the 1980s, people who protested the increasing trend of fast food started a “slow food” movement. The movement aimed to preserve local foods, recipes, and communities, while rejecting fast, commercialized foods. This inspired the “slow city movement.”

The first Slow City was Chianti, Italy. The people there wanted to keep nature in good shape and protect historic buildings. They came up with a plan for developing their town just the way they wanted. They called this plan cittaslow. The term comes from the words “slow” and “citta,” which means “town” or “city” in Italian. The founders of this plan decided that new developments should keep people healthy and promote good relationships among neighbors. They also thought development should not hurt the natural environment.

Since 1999, dozens of cities around the world have been named Slow Cities. They have a lot of green places where people can exercise and enjoy nature. Slow Cities do not have many fast-food restaurants or big supermarkets. Instead, they have locally owned restaurants and small markets. Try visiting a Slow City someday to see if you like it!

11. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

“the person who got an organization or a plan started”

① founder ② neighbor ③ recipe ④ market ⑤ visitor

12. 윗글에 따르면, 최초의 Slow City는 어디인가? [2.5 점]

① Rome, Italy ② Paris, France ③ Seoul, Korea ④ Chianti, Italy ⑤ Madrid, Spain

13. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① the dangers of eating fast food
② famous wines of Italy
③ the slow city movement and its goals
④ how to open a small restaurant
⑤ the history of Italian recipes

14. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① The slow food movement started in the 1980s.
② Slow Cities have many big supermarkets and fast-food restaurants.
③ Cittaslow was a plan for developing a town.
④ The founders wanted new developments to keep people healthy.
⑤ Since 1999, dozens of cities have been named Slow Cities.

15. 윗글을 통해 추론할 수 있는 것으로 가장 적절한 것은? [2.5 점]

① The slow city movement wants cities to grow as fast as possible.
② Chianti stopped being a Slow City after 1999.
③ Slow Cities do not allow tourists to visit.
④ The slow food movement was started to promote fast food.
⑤ People in Slow Cities value health, nature, and neighbors more than speed.

Unit 4 · Science — The Theory of the Four Elements

[16~20] 다음 글을 읽고 물음에 답하시오.

Before modern chemistry, ancient people tried to understand the makeup of the world. The ancient Greek philosopher Empedocles theorized that four elements made up every substance known to man. These elements were water, fire, earth, and air.

What observations did Empedocles make about these elements? First, he noted that pots were made with earth and water. After being mixed and shaped, they were burned with fire and cooled with air. All four elements were necessary to make one pot. The same pot was used for cooking plants from the earth, often mixed with water, over a flame. The air cooled down the food so it could be eaten. Thus, all four elements were necessary to prepare a meal. Empedocles also believed that these elements were indestructible and unchangeable. His theories inspired later scientists to study more about the elements that make up our world.

Think about your life and all of your belongings. How are the four elements involved in things you own, such as your computer, your clothes, and the food you eat? Thinking about everyday objects on a small scale can help us understand the world around us.

16. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"very strong and impossible to break or destroy"

① delicious ② ancient ③ useful ④ modern ⑤ indestructible

17. 윗글에서 Empedocles가 말한 네 가지 원소에 해당하지 않는 것은? [2.5 점]

① water ② fire ③ wood ④ earth ⑤ air

18. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① the life of Greek philosophers
② Empedocles's theory that four elements make up all things
③ how to cook food over a fire
④ the modern periodic table
⑤ why air cools down food

19. 윗글의 내용과 일치하는 것은? [2.5 점]

① Empedocles's theories inspired later scientists to study the elements.
② Empedocles was a Roman philosopher.
③ Pots were cooled with water after being burned.
④ Empedocles believed the elements could easily change.
⑤ Only two elements were needed to make a pot.

20. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Empedocles (A) _____ that four elements made up every substance, and he believed these elements could not be (B) _____.

① (A) forgot …… (B) destroyed ② (A) denied …… (B) changed
③ (A) theorized …… (B) seen ④ (A) theorized …… (B) destroyed
⑤ (A) forgot …… (B) mixed

Unit 5 · Art — Teddy Bears Throughout Time

[21~25] 다음 글을 읽고 물음에 답하시오.

How did the teddy bear get its name? It comes from U.S. president Theodore Roosevelt. During a hunting trip, Roosevelt refused to kill a bear that had been tied to a tree. All over America, people heard about this story. Some people even made stuffed bears and called them “teddy bears” in honor of the president’s nickname, Teddy.

Teddy bears became mass-produced in the twentieth century. They were mainly toys for children, but they were also popularly featured in books and even in movies. Some well-known examples include Winnie the Pooh, which was originally written for adults, as well as Paddington Bear. Due to their popularity, teddy bears were manufactured in a wide range of sizes, colors, and materials. They have endured such lasting popularity that there are museums dedicated to teddy bears all around the world. England, Japan, and South Korea are just a few countries that have teddy bear museums.

Whether they are children’s toys, subjects of books, or objects on display at museums, teddy bears remain popular. They bring children comfort and are fun to play with. Teddy bears will probably be around for a long time to come.

21. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

“to say no to something that is offered to you; not to accept or do something”

① display ② tie ③ bring ④ refuse ⑤ feature

22. 윗글에 따르면, ‘teddy bear’라는 이름은 누구의 별명에서 나왔는가? [2.5 점]

① a famous toy maker
② the writer of Winnie the Pooh
③ a hunter in England
④ a museum owner in Japan
⑤ U.S. president Theodore Roosevelt

23. 윗글의 제목으로 가장 적절한 것은? [2.5 점]

① The Story and Lasting Popularity of Teddy Bears
② How to Hunt Bears Safely
③ Famous Presidents of the United States
④ The Best Toy Museums in Korea
⑤ Why Children Like Picture Books

24. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① Roosevelt refused to kill a bear tied to a tree.
② Teddy bears became mass-produced in the twentieth century.
③ Winnie the Pooh was originally written for children.
④ Teddy bears were made in many sizes, colors, and materials.
⑤ There is a teddy bear museum in South Korea.

25. 윗글을 통해 추론할 수 있는 것으로 가장 적절한 것은? [2.5 점]

① Teddy bears were popular only in America.
② Many Americans admired Roosevelt’s choice not to kill the bear.
③ Roosevelt made the first teddy bear himself.
④ Teddy bears will soon lose their popularity.
⑤ Paddington Bear was the very first teddy bear.

Unit 6 · Nature — Osmosis in Everyday Life

[26~30] 다음 글을 읽고 물음에 답하시오.

Molecules are always moving. Sometimes, molecules even move through membranes. Molecules tend to pass through semi-permeable membranes to an area where the solvent concentration is higher. This equalizes the concentration of materials on either side of the membrane. This process is called osmosis. Osmosis is an important chemical process with practical uses in everyday life. What is one use of osmosis?

Fresh vegetables have a high concentration of water molecules. During pickling, vegetables are placed in a brine—a mixture of water, salt, and seasonings. The skin acts as a semi-permeable membrane. Water molecules move out of the vegetables through the skin and into the brine, which equalizes the solvent concentration on either side of the membrane. This process is an example of osmosis, and it is why pickled vegetables stay crunchy.

Reverse osmosis is a process that uses pressure to force molecules into an area of lower solute concentration. We use reverse osmosis to remove salt and other particles from seawater. Afterward, we can drink the water!

Chemical processes like osmosis have a big effect on our everyday lives. For this reason, learning about how they work is important for our understanding of the world.

26. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"to take something away from a place"

① remove ② pickle ③ taste ④ drink ⑤ grow

27. 윗글에 따르면, brine(소금물)은 무엇으로 이루어져 있는가? [2.5 점]

① water, sugar, and oil
② water, salt, and seasonings
③ salt, vinegar, and sugar
④ seawater and vegetables
⑤ water and black pepper only

28. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① how to grow fresh vegetables
② the dangers of drinking seawater
③ the history of pickles
④ how molecules are created
⑤ osmosis and its uses in everyday life

29. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① Molecules are always moving.
② During pickling, water moves out of vegetables into the brine.
③ The skin of a vegetable acts as a semi-permeable membrane.
④ Pickled vegetables become soft because of osmosis.
⑤ Reverse osmosis uses pressure to remove salt from seawater.

30. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Osmosis (A) _____ the concentration on both sides of a membrane, and reverse osmosis makes seawater (B) _____.

① (A) increases ..... (B) salty
② (A) stops ..... (B) drinkable
③ (A) equalizes ..... (B) drinkable
④ (A) equalizes ..... (B) salty
⑤ (A) increases ..... (B) colorful

Unit 7 · Social Studies — Majority Rule in Democracies

[31~35] 다음 글을 읽고 물음에 답하시오.

People usually make tough decisions by voting for one of two or more options. The option that gets the most votes is the winner. This is called majority rule. However, even if only 51% of people in a group vote for an option, they will get their choice. That means, almost half of the people in that group will not get their choice. In that case, is majority rule really fair?

Most democracies elect public officials through a majority vote. In a system with two political parties, a slim margin, such as 51% to 49%, can decide an election. In a system with more than two parties, less than 50% of voters could give one political party a victory. To ensure the fairness of majority rule, certain conditions must be met. First, people should be able to vote with secret ballots. Second, each person's vote should be weighted equally. Finally, there have to be enough voters to make a majority vote truly fair.

When an election is won with less than 50% of the total votes, the winning party must consider the opinions of the other voters. This is because running a democracy should ensure equality for all citizens.

31. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"a type of government in which people choose their rulers by voting for them in elections"

① victory ② ballot ③ democracy ④ option ⑤ citizen

32. 윗글에 따르면, majority rule(다수결)에 대한 설명으로 옳은 것은? [2.5 점]

① The oldest person makes the decision.
② Everyone must agree on one option.
③ The president always chooses the winner.
④ The option that gets the most votes wins.
⑤ The option with the fewest votes wins.

33. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① how to become a public official
② majority rule and the conditions needed to make it fair
③ the history of political parties
④ why secret ballots are dangerous
⑤ countries that have no elections

34. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① A slim margin, such as 51% to 49%, can decide an election.
② With more than two parties, a party can win with less than 50% of the votes.
③ Under majority rule, almost half of the people may not get their choice.
④ People should be able to vote with secret ballots.
⑤ Some people's votes should count more than others'.

35. 윗글의 글쓴이가 가장 동의할 만한 것은? [2.5 점]

① Majority rule works best when the opinions of other voters are also respected.
② Majority rule is always perfectly fair.
③ Winners should ignore people who voted for other parties.
④ Secret ballots make elections less fair.
⑤ A democracy should have only one political party.

Unit 8 · Science — The Rising Prominence of Telescopes

[36~40] 다음 글을 읽고 물음에 답하시오.

Throughout history, humans have looked at the stars as a map, as a guide, and for worship. The invention of the telescope has helped humans see and understand the stars better. How have telescopes changed over time?

Telescopes were originally used to see long distances. Galileo was one of the first to use a telescope to observe the stars. His telescope used a concave eyepiece and a convex lens. This gave the image seen through the telescope an upright view and magnified it up to thirty times! Even though Galileo's telescope was quite useful at the time, the images it produced were blurry. Kepler improved on Galileo's design by using a convex eyepiece and lens. This gave a much wider field of view, even though the images appeared upside-down.

In modern times, telescopes have been launched into space to help astronomers observe not just the stars, but the universe as well. One example is the Hubble Telescope, which orbits Earth and sends back high-quality pictures of distant planets and galaxies. Through continued technological developments, humans can understand the universe much better.

36. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"a scientist who studies the stars, planets, and other natural objects in space"

① dentist ② astronomer ③ architect ④ farmer ⑤ painter

37. 윗글에 따르면, Galileo의 망원경은 이미지를 최대 몇 배까지 확대했는가? [2.5 점]

① three times ② five times ③ ten times ④ twenty times ⑤ thirty times

38. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① how to build a telescope at home ② the life of Galileo
③ why stars are used as maps ④ the development of telescopes over time
⑤ the dangers of space travel

39. 윗글의 내용과 일치하는 것은? [2.5 점]

① Kepler's telescope had a wider field of view than Galileo's.
② Galileo's telescope gave clear but upside-down images.
③ Kepler's telescope used a concave eyepiece.
④ Telescopes were first used to take pictures of planets.
⑤ The Hubble Telescope sits on top of a mountain on Earth.

40. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Kepler (A) _____ Galileo's design to get a wider field of view, and today telescopes like the Hubble are (B) _____ into space.

① (A) copied ..... (B) dropped ② (A) improved ..... (B) buried
③ (A) improved ..... (B) launched ④ (A) destroyed ..... (B) launched
⑤ (A) copied ..... (B) sold
