The Reading 7-1 Final Test

영어 독해 · Level 7 (중1 수준) · Unit 1~8 · 50분

반 _____ 이름 _____ 점수 _____

• 40문항 · 5지선다 · 문항당 2.5점(100점 만점) · **70점(28문항)** 이상 합격 · 답은 하나만 고르세요.

Unit 1 · Art — Andy Warhol and Pop Art

[1~5] 다음 글을 읽고 물음에 답하시오.

Art in advertisements has become increasingly popular. This is called commercial art. One of the most famous commercial artists was Andy Warhol.

Andy Warhol was often sick as a child, so he spent a lot of time drawing. After college, he began his career making art for advertisements. His drawings of shoes became so well known that people wanted to see more of his work. Thus, in the 1950s, he began showing his popular works in art galleries. Warhol was one of the first artists to use silkscreen ink printing in his work. During the 1960s, he produced many famous art pieces depicting everyday objects. These include Coca-Cola bottles, dollar bills, and Campbell's Soup cans. This kind of art is referred to as "pop art."

Some critics think Andy Warhol was only interested in making money with his art. Others thought he was the perfect example of commercialized modern life. Apart from this argument, most critics agree that Warhol's work shows the changing value of art in everyday life.

1. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"a person who writes about and expresses opinions about books, movies, music, or art"

① gallery ② career ③ critic ④ object ⑤ television

2. 윗글에 따르면, Andy Warhol이 어린 시절 그림을 많이 그린 이유로 가장 적절한 것은? [2.5 점]

① He studied art in college. ② He was often sick as a child.
③ His parents were famous artists. ④ He wanted to sell his drawings.
⑤ He worked for a magazine.

3. 윗글의 밑줄 친 These가 가리키는 것으로 가장 적절한 것은? [2.5 점]

① Warhol's art pieces that show everyday objects
② the advertisements Warhol made after college
③ the art galleries that showed his works
④ Warhol's early drawings of shoes
⑤ the critics who wrote about Warhol

4. 다음 (A)~(D)를 윗글에서 일어난 순서대로 바르게 배열한 것은? [2.5 점]

(A) Warhol began showing his works in art galleries.
(B) Warhol began making art for advertisements.
(C) Warhol produced art pieces depicting everyday objects.
(D) Warhol spent a lot of time drawing because he was often sick.

① (B) – (D) – (A) – (C) ② (D) – (A) – (B) – (C)
③ (D) – (B) – (C) – (A) ④ (B) – (A) – (C) – (D)
⑤ (D) – (B) – (A) – (C)

5. 윗글을 통해 추론할 수 있는 것으로 가장 적절한 것은? [2.5 점]

① Warhol stopped making art after he became famous.
② All critics agreed that Warhol only wanted to make money.
③ Warhol was the person who invented silkscreen ink printing.
④ Pop art used images that people saw in their daily lives.
⑤ Commercial art was more popular in the past than it is today.

Unit 2 · Nature — The Water Cycle Keeps Earth Balanced

[6~10] 다음 글을 읽고 물음에 답하시오.

The water cycle is necessary for life on Earth. Water on the ground evaporates into vapor and forms clouds in the sky. In return, rain brings water back down to the ground again. What happens when humans tamper with the water cycle?

Most evaporation occurs in oceans as a result of the Sun's energy. This cools the temperature of Earth's climate and also affects the oceans' salt content. Having the correct amount of salt in the oceans maintains a delicate ecosystem of plants, fish, and other wildlife. One example of a disaster caused by tampering with the water cycle is the drying-up of the Aral Sea. The two rivers that fed the Aral Sea were diverted for farming in the desert. As a result, the sea is now almost completely dry, killing the wildlife that lived there and causing dust storms that affect human health.

As we can see, the water cycle is necessary to keep the environment balanced.

6. 윗글의 밑줄 친 maintains와 의미가 가장 가까운 것은? [2.5 점]

① keeps ② breaks ③ loses ④ sells ⑤ finds

7. 윗글에 따르면, Aral Sea로 흘러들던 두 강의 물길을 바꾼 목적은? [2.5 점]

① to build a new city ② to make electricity
③ to stop dust storms ④ to farm in the desert
⑤ to protect wildlife

8. 글쓴이가 Aral Sea를 언급한 이유로 가장 적절한 것은? [2.5 점]

① 사막에서 농사짓는 방법을 소개하기 위해
② 물의 순환을 함부로 바꾸면 생기는 재앙의 예를 들기 위해
③ 바다의 소금이 생기는 과정을 설명하기 위해
④ 세계에서 가장 큰 호수를 소개하기 위해
⑤ 증발이 기후를 식히는 원리를 보여 주기 위해

9. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① Rain brings water back down to the ground.
② Evaporation affects the salt content of the oceans.
③ Most evaporation happens in rivers and lakes.
④ The Aral Sea is now almost completely dry.
⑤ Dust storms from the Aral Sea affect human health.

10. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Evaporation (A) _____ Earth's climate and affects the salt in the oceans. But when people (B) _____ the water cycle, a disaster like the drying-up of the Aral Sea can happen.

① (A) warms ..... (B) change ② (A) cools ..... (B) protect
③ (A) warms ..... (B) study ④ (A) dries ..... (B) protect
⑤ (A) cools ..... (B) change

Unit 3 · Social Studies — The Slow City Movement

[11~15] 다음 글을 읽고 물음에 답하시오.

In the 1980s, people who protested the increasing trend of fast food started a “slow food” movement. The movement aimed to preserve local foods, recipes, and communities, while rejecting fast, commercialized foods. This inspired the “slow city movement.”

The first Slow City was Chianti, Italy. The people there wanted to keep nature in good shape and _____ historic buildings. They came up with a plan for developing their town just the way they wanted. They called this plan cittaslow. The founders of this plan decided that new developments should keep people healthy and promote good relationships among neighbors. They also thought development should not hurt the natural environment.

Since 1999, dozens of cities around the world have been named Slow Cities. Slow Cities do not have many fast-food restaurants or big supermarkets. Instead, they have locally owned restaurants and small markets. Try visiting a Slow City someday to see if you like it!

11. 윗글에 따르면, 최초의 Slow City는 어디인가? [2.5 점]

① Rome, Italy ② Chianti, Italy ③ Paris, France ④ Seoul, Korea ⑤ Madrid, Spain

12. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은? [2.5 점]

① destroy ② remove ③ reject ④ forget ⑤ protect

13. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① the dangers of eating fast food
② famous foods of Italy
③ the slow city movement and what Slow Cities are like
④ how to open a small restaurant
⑤ the history of Italian cities

14. 윗글의 내용과 일치하는 것은? [2.5 점]

① Slow Cities have locally owned restaurants instead of many fast-food restaurants.
② The slow food movement started in the 1990s.
③ The slow city movement inspired the slow food movement.
④ Cittaslow is the name of a historic building in Chianti.
⑤ Only two cities have been named Slow Cities since 1999.

15. 윗글의 글쓴이가 가장 동의할 만한 것은? [2.5 점]

① Fast food is the best way to feed a busy city.
② Big supermarkets bring neighbors closer together.
③ A city should grow as fast as possible.
④ A town can develop without harming nature or people’s health.
⑤ Historic buildings should be replaced with new ones.

Unit 4 · Science — The Theory of the Four Elements

[16~20] 다음 글을 읽고 물음에 답하시오.

Before modern chemistry, ancient people tried to understand the makeup of the world. The ancient Greek philosopher Empedocles theorized that four elements made up every substance known to man. These elements were water, fire, earth, and air.

What observations did Empedocles make about these elements? First, he noted that pots were made with earth and water. After being mixed and shaped, they were burned with fire and cooled with air. All four elements were necessary to make one pot. The same pot was used for cooking plants from the earth, often mixed with water, over a flame. The air cooled down the food so it could be eaten. Thus, all four elements were necessary to _____. Empedocles also believed that these elements were indestructible and unchangeable. His theories inspired later scientists to study more about the elements that make up our world.

16. 윗글에서 Empedocles가 말한 네 가지 원소에 해당하지 않는 것은? [2.5 점]

① water ② fire ③ earth ④ wood ⑤ air

17. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"very strong and impossible to break or destroy"

① indestructible ② ancient ③ delicious ④ modern ⑤ necessary

18. 다음은 윗글의 내용을 정리한 표이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Making a Pot	
1	Pots are made with earth and water.
2	They are mixed and shaped.
3	They are burned with (A) _____.
4	They are cooled with (B) _____.

① (A) air ..... (B) fire ② (A) fire ..... (B) water
③ (A) water ..... (B) air ④ (A) earth ..... (B) fire
⑤ (A) fire ..... (B) air

19. 윗글의 제목으로 가장 적절한 것은? [2.5 점]

① How to Make a Pot with Earth and Water
② Empedocles and His Theory of the Four Elements
③ The Life of Ancient Greek Philosophers
④ Why Fire Is the Most Important Element
⑤ Modern Chemistry and the Periodic Table

20. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은? [2.5 점]

① build a house ② sell the pot ③ prepare a meal ④ grow plants ⑤ start a fire

Unit 5 · Art — Teddy Bears Throughout Time

[21~25] 다음 글을 읽고 물음에 답하시오.

How did the teddy bear get its name? It comes from U.S. president Theodore Roosevelt. During a hunting trip, Roosevelt refused to kill a bear that had been tied to a tree. All over America, people heard about this story. Some people even made stuffed bears and called them "teddy bears" in honor of the president's nickname, Teddy.

Teddy bears became mass-produced in the twentieth century. They were mainly toys for children, but they were also popularly featured in books and even in movies. Some well-known examples include Winnie the Pooh, which was originally written for adults, as well as Paddington Bear. Due to their popularity, teddy bears were manufactured in a wide range of sizes, colors, and materials. They have endured such lasting popularity that there are museums dedicated to teddy bears all around the world. England, Japan, and South Korea are just a few countries that have teddy bear museums.

Whether they are children's toys, subjects of books, or objects on display at museums, teddy bears remain popular. Teddy bears will probably be around for a long time to come.

21. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"to say no to something that is offered to you, or to not do something you are asked to do"

① display ② tie ③ hear ④ remain ⑤ refuse

22. 윗글에 따르면, 'teddy bear'라는 이름은 누구의 별명에서 나왔는가? [2.5 점]

① a famous toy maker
② the writer of Winnie the Pooh
③ U.S. president Theodore Roosevelt
④ a hunter who caught a bear
⑤ a museum owner in Japan

23. 윗글의 밑줄 친 this story가 가리키는 내용으로 가장 적절한 것은? [2.5 점]

① Roosevelt became the president of the United States.
② Some people made stuffed bears and named them teddy bears.
③ Winnie the Pooh was originally written for adults.
④ Roosevelt refused to kill a bear that was tied to a tree.
⑤ A bear escaped from a tree during a hunting trip.

24. 다음 (A)~(D)를 윗글에서 일어난 순서대로 바르게 배열한 것은? [2.5 점]

(A) People all over America heard about the story.
(B) Roosevelt refused to kill a bear on a hunting trip.
(C) Teddy bears became mass-produced in the twentieth century.
(D) Some people made stuffed bears and called them "teddy bears."

① (A) – (B) – (D) – (C) ② (B) – (A) – (D) – (C)
③ (B) – (D) – (A) – (C) ④ (B) – (A) – (C) – (D)
⑤ (D) – (B) – (A) – (C)

25. 윗글을 통해 추론할 수 있는 것으로 가장 적절한 것은? [2.5 점]

① Many Americans admired Roosevelt for not killing the bear.
② Teddy bears were popular only in America.
③ Roosevelt made the first teddy bear himself.
④ Teddy bears will soon lose their popularity.
⑤ Paddington Bear was the first teddy bear ever made.

Unit 6 · Nature — Osmosis in Everyday Life

[26~30] 다음 글을 읽고 물음에 답하시오.

Molecules are always moving. Molecules tend to pass through semi-permeable membranes to an area where the solvent concentration is higher. This equalizes the concentration of materials on either side of the membrane. This process is called osmosis. Osmosis is an important chemical process with practical uses in everyday life. What is one use of osmosis?

Fresh vegetables have a high concentration of water molecules. During pickling, vegetables are placed in a brine—a mixture of water, salt, and seasonings. The skin acts as a semi-permeable membrane. Water molecules move out of the vegetables through the skin and into the brine, which equalizes the solvent concentration on either side of the membrane. This process is an example of osmosis, and it is why pickled vegetables stay crunchy.

Reverse osmosis is a process that uses pressure to force molecules into an area of lower solute concentration. We use reverse osmosis to remove salt and other particles from seawater. Afterward, we can drink the water!

26. 윗글의 밑줄 친 remove와 의미가 가장 가까운 것은? [2.5 점]

① take out ② put in ③ mix up ④ heat up ⑤ keep

27. 윗글에 따르면, brine은 무엇으로 이루어져 있는가? [2.5 점]

① water, sugar, and oil
② water, salt, and seasonings
③ salt, vinegar, and sugar
④ seawater and vegetables
⑤ water and black pepper only

28. 글쓴이가 pickling(피클 만들기)을 언급한 이유로 가장 적절한 것은? [2.5 점]

① 채소를 싱싱하게 기르는 방법을 알려 주기 위해
② 소금물을 만드는 순서를 설명하기 위해
③ 바닷물을 마실 수 있게 만드는 과정을 보여 주기 위해
④ 분자가 움직이지 않는 경우를 설명하기 위해
⑤ 일상생활에서 삼투 현상이 쓰이는 예를 들기 위해

29. 윗글의 내용과 일치하지 않는 것은? [2.5 점]

① Molecules are always moving.
② The skin of a vegetable acts as a semi-permeable membrane.
③ During pickling, water moves out of the vegetables into the brine.
④ Pickled vegetables become soft because of osmosis.
⑤ Reverse osmosis uses pressure to remove salt from seawater.

30. 다음은 윗글을 요약한 것이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

Osmosis (A) _____ the concentration on both sides of a membrane, as in pickling. Reverse osmosis uses pressure to remove salt from seawater and makes it (B) _____.

① (A) increases ..... (B) salty
② (A) stops ..... (B) drinkable
③ (A) equalizes ..... (B) drinkable
④ (A) equalizes ..... (B) salty
⑤ (A) increases ..... (B) frozen

Unit 7 · Social Studies — Majority Rule in Democracies

[31~35] 다음 글을 읽고 물음에 답하시오.

People usually make tough decisions by voting for one of two or more options. The option that gets the most votes is the winner. This is called majority rule. However, even if only 51% of people in a group vote for an option, they will get their choice. That means, almost half of the people in that group will not get their choice. In that case, is majority rule really fair?

Most democracies elect public officials through a majority vote. In a system with two political parties, a slim margin, such as 51% to 49%, can decide an election. In a system with more than two parties, less than 50% of voters could give one political party a victory. To ensure the _____ of majority rule, certain conditions must be met. First, people should be able to vote with secret ballots. Second, each person's vote should be weighted equally. Finally, there have to be enough voters to make a majority vote truly fair.

When an election is won with less than 50% of the total votes, the winning party must consider the opinions of the other voters. This is because running a democracy should ensure equality for all citizens.

31. 윗글에 따르면, majority rule(다수결)에서 승자가 되는 것은? [2.5 점]

① the option chosen by the oldest voter
② the option that every single person agrees on
③ the option that gets the most votes
④ the option the president likes best
⑤ the option that gets the fewest votes

32. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은? [2.5 점]

① victory ② speed ③ price ④ fairness ⑤ size

33. 윗글의 주제로 가장 적절한 것은? [2.5 점]

① majority rule and the conditions that make it fair
② how to become a public official
③ the history of political parties
④ why people should not vote in elections
⑤ the fastest way to count votes

34. 윗글의 내용과 일치하는 것은? [2.5 점]

① In majority rule, the winner always gets more than 90% of the votes.
② Most democracies choose public officials by drawing lots.
③ Each person's vote should be weighted differently.
④ A winning party does not need to think about other voters.
⑤ With more than two parties, a party can win with less than 50% of the votes.

35. 윗글의 글쓴이가 가장 동의할 만한 것은? [2.5 점]

① Majority rule is always perfectly fair.
② Majority rule needs certain conditions to be truly fair.
③ Secret ballots make elections less fair.
④ Winners should ignore people who voted for other parties.
⑤ A democracy should have only one political party.

Unit 8 · Science — The Rising Prominence of Telescopes

[36~40] 다음 글을 읽고 물음에 답하시오.

The invention of the telescope has helped humans see and understand the stars better. How have telescopes changed over time?

Telescopes were originally used to see long distances. Galileo was one of the first to use a telescope to observe the stars. His telescope used a concave eyepiece and a convex lens. This gave the image seen through the telescope an upright view and magnified it up to thirty times! Even though Galileo's telescope was quite useful at the time, the images it produced were blurry. Kepler improved on Galileo's design by using a convex eyepiece and lens. This gave a much wider field of view, even though the images appeared upside-down.

In modern times, telescopes have been launched into space to help astronomers _____. One example is the Hubble Telescope, which orbits Earth and sends back high-quality pictures of distant planets and galaxies. Through continued technological developments, humans can understand the universe much better.

36. 윗글에 따르면, Galileo의 망원경은 이미지를 최대 몇 배까지 확대했는가? [2.5 점]

① three times ② five times ③ ten times ④ twenty times ⑤ thirty times

37. 다음 영영풀이에 해당하는 단어로 가장 적절한 것은? [2.5 점]

"a scientist who studies the stars, planets, and other natural objects in space"

① dentist ② astronomer ③ architect ④ farmer ⑤ pilot

38. 다음은 윗글의 내용을 정리한 표이다. 빈칸 (A), (B)에 들어갈 말로 가장 적절한 것은? [2.5 점]

	Galileo's telescope	**Kepler's telescope**
eyepiece	(A) _____	convex
lens	convex	convex
images	upright, but blurry	wider field of view, but (B) _____

① (A) convex ..... (B) upside-down ② (A) concave ..... (B) blurry
③ (A) concave ..... (B) upside-down ④ (A) convex ..... (B) upright
⑤ (A) concave ..... (B) clear

39. 윗글의 제목으로 가장 적절한 것은? [2.5 점]

① How to Make Your Own Telescope
② The Life and Death of Galileo
③ Why People Used the Stars as Maps
④ How Telescopes Have Changed over Time
⑤ A Day in the Life of the Hubble Telescope

40. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은? [2.5 점]

① observe not only the stars but also the universe
② see long distances on the ground
③ take blurry pictures of the Moon
④ fix the problems of Kepler's telescope
⑤ travel to distant planets
